Apply to receive a \$1,000 scholarship for your sustainable efforts!

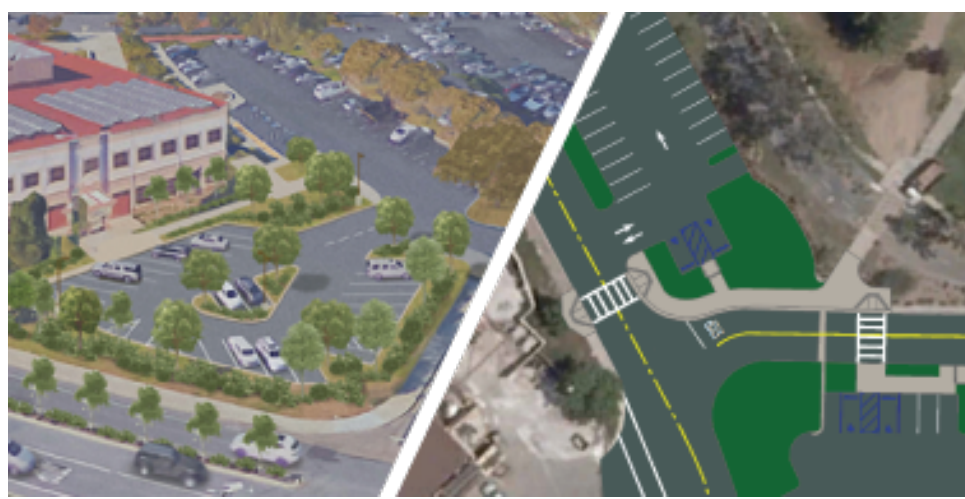

UCI's Tenth Annual Book Drive

Join us and the Community Action Partnership of Orange County (CAPOC) in launching the 10th annual [UCI Book Drive](#). Through March 31, donate your new and like-new books to help address the literacy needs of our local community. These books are used as educational and recreational resources to assist families in need. Thank you for your support of this worthwhile community project.

Upcoming Construction Projects

UCI Transportation is working with campus planners to meet the demands of our growing University. The expansion of Parking Lot 12B will create 32 additional stalls and help offset the loss of parking from the Interdisciplinary Science and Engineering Building (ISEB). Near Anteater Parking Structure, the roundabout on Engineering Services Road will be converted into a T-intersection to improve traffic flow during peak hours. Along with a qualified consultant, we are evaluating potential sites for the next phase of parking facilities. Learn more about our major infrastructure improvements by visiting the [Current Projects](#) webpage.

FlixBus Expanded Destinations from UCI

As Spring Break nears, plan a trip with [FlixBus](#) to visit home or explore new cities. With added destinations in Northern California, Arizona, Nevada, New Mexico, Texas, and Utah, long-distance getaways just became more affordable. Tickets as low as \$4.99 offer great amenities, including business-class seating, complimentary Wi-Fi, power outlets, and free onboard entertainment. UCI Transportation continues to work with FlixBus to expand direct service from UCI. Stop by the [Transportation Office](#) to receive an exclusive 30% discount on your next travel destination!

Twelve \$1,000 Scholarship Available

Are you an undergraduate student committed to sustainability? Apply by [Saturday, February 29](#), to be one of 12 students to receive the Reward Opportunity Advancing Distinguished Students (ROADS) scholarship for \$1,000. UCI Transportation looks forward to supporting your environmentally focused research and exciting ecological projects in the 2020-2021 academic year.

Join the Green Movement by Vanpooling

Make your daily commute a breeze with [OC Vanpool](#). These monthly "super carpools" reduce your commute time with access to the carpool lane and save you money on fuel, vehicle maintenance, and parking. To support UCI's commitment to sustainability, submit a [Vanpool Request Form](#) today! UCI Transportation will be hosting upcoming vanpool matching sessions to assist you in locating others to share in your ride.

Fuel Delivery for Faculty and Staff

UCI Transportation has partnered with Booster Fuels to provide faculty and staff with [same-day gasoline delivery](#). UCI is the first university in the west to offer this convenience, allowing you to schedule your delivery during a workday and enjoy life without gas stations. By helping you reduce your extra errand trips, UCI Transportation aims to minimize traffic congestion and carbon emissions. Download the [mobile app for iOS or Android](#) and order a fill-up today!

Best Workplace for 12 Years Running

UCI Transportation is honored by the Best Workplace for Commuters for the 12th consecutive year with its Race to Excellence award. The National Center for Transit identified UCI as one of the top universities in advancing customer-focused transportation services, including vanpool, carpool, and other transit options.
