

# CoHS Accessibility & Connectivity Improvements

**EXPECTED COMPLETION WINTER 2026**

## ABOUT THIS PROJECT

UC Irvine Transportation is improving accessibility and mobility within the College of Health Sciences (CoHS) through new pedestrian pathways and an accessibility ramp linking the Health Sciences Parking Structure (HSPS) to Hewitt Research Hall and the Health Sciences Quad. Upon review of existing pathways and infrastructure, we have identified that the construction of a walkway through Lot 83D is necessary to support campus growth while enhancing connectivity in the area.

## PROJECT HIGHLIGHTS

- ➔ Creates accessible pathways that do not currently exist in the area
- ➔ Links HSPS to Hewitt Research Hall and the Health Sciences Quad
- ➔ Supports campus growth while enhancing connectivity
