

Aldrich Hall Ped. Safety Improvement Project

CURRENTLY IN PROGRESS

ABOUT THIS PROJECT

UCI Transportation will install turnstiles and a "Pedestrian Traffic Only" sign on the sidewalk next to the west side of Aldrich Hall to improve pedestrian safety and manage micromobility device traffic. This initiative creates a designated dismount zone, aiming to provide a safer and more predictable environment for pedestrians and travelers. The project seeks to reduce conflicts between pedestrians and fast-moving devices by encouraging riders to walk their devices through the area.

PROJECT HIGHLIGHTS

- ➔ Establishes dismount zone to enhance pedestrian safety and regulate micromobility device traffic
- ➔ Reduces potential conflicts, promoting a safer, more predictable environment
- ➔ Installation of turnstiles and signage to promote pedestrian safety
